

OCEANA SPORTS MEDICINE & ORTHOPAEDIC CENTER

DIAGNOSTIC TEST RESULTS POLICY

At Oceana Sports Medicine and Orthopaedic Center PLLC (OSMOC), we strive to provide comprehensive musculoskeletal and orthopaedic care. As a part of your treatment you may be sent for diagnostic testing, including advanced imaging, lab work or nerve conduction studies. Our emphasis is on personal communication with you, and we want to ensure your complete understanding of the results of your tests, and allow for the discussion of the treatment options based on those test results. We request that you return to the office to personally review your results with your doctor. As most testing is completed at an outside facility, it is the patient's responsibility to obtain the results of all tests in addition to ensuring all outside results are sent to the OSMOC office prior to the follow-up appointment.

Please have the test results and/or imaging reports FAXED to 757-264-6270.
